## QUOTES FROM MARTIN LUTHER KING DAY OF SERVICE ESSAY CONTEST WINNERS

"I watch the news every morning, and the feelings hit me like a rock. There are so many people that need assistance and so many that are calling out for help. Half of the stories on television are about people getting hurt or about natural disasters changing lives of millions. How must they feel? I know there are many organizations that help in situations like that, but this is all huge stuff. I'm only a 10 year old boy, in 4th grade. What can I do?"

Ryan Day, 4th grade

"Happiness spreads through the "givers" and "receivers" of service like an epidemic. The deepest valves of the heart are opened, and the love that is shared between server and the served is a love of understanding, appreciation, and compassion. Service is the salve that heals the wounds of life's twists and turns. When we join together in a day of service, we slowly, but surely, begin to construct a world of civility, contentment, and peace."

"Volunteering gives you an opportunity to better your community, and yourself, all while having fun. Whether working at a thrift store or cleaning up trash along the road, volunteering is something that every person should do in their life. Volunteering gives you an opportunity to make a difference and gives you something to be proud of all while helping people in need. The number one reason why volunteerism is important to me is because it gives you the ability to change lives. At the end of the day, volunteerism is not just one service project or one food drive—it's making the difference in the community one person at a time."

Sara Stout, 12th grade

## May is Mental Health Awareness Month

Every day at Family Service we see children and families struggling with mental health issues.

**We are here to help.**

Children and youth with mental health issues can thrive if provided with the services and supports they need.

It is estimated that as many as one in five children and adolescents may have a mental health disorder that requires treatment.

Families and communities, working together, can help children and adolescents with mental disorders.

Learn how Family Service's programs can help your family.
